

## REGISTER FOR AN UPTODATE ACCOUNT TO USE WITH MOBILE ACCESS

1. After navigating to <http://www.uptodate.com> while on-campus or through off-campus access available through the library, click Log In/Register in the upper right-hand corner.

2. On the next screen, fill out the information in the Register section. You can choose any user name and password that you wish. You must fill in all the fields.

A screenshot of the UpToDate registration form titled "Register (New User)". The form is divided into two columns. The left column is labeled "All fields are required for registration" and contains fields for "First Name", "Last Name", "Email Address", "Verify Email Address", "ZIP/Postal Code", "Specialty" (a dropdown menu with "Please Select"), and "Practice Type" (a dropdown menu with "Please Select"). The right column is labeled "Select your user name and password" and contains fields for "User Name", "Password", and "Verify Password". At the bottom right of the form is an orange "Submit Registration" button and a blue link "Skip this for now".

3. After filling out the registration, review the license terms and, if you agree, click Accept.
4. In order to use the app on your mobile device, you must download it from the relevant app store for your device (e.g. google play for android devices). For instructions on how to accomplish this, please see the UpToDate instructions found here: <http://www.uptodate.com/home/uptodate-mobile-access> Once you download the app, login with the username and password you just created.

**IMPORTANT:** In order to maintain mobile access to UpToDate, you must log in to UpToDate from on-campus, through library off-campus access, or through the EHR every 30 days.

Please contact Jake Nash, Resource Management Librarian, with any questions.
