Instructions for importing PEDro search results into RefWorks

1. Perform a PEDro search.
2. Select the relevant records by clicking on Select to the right of the record title.
3. Click Display Selected Records.

4. Copy the selected records displayed on the screen – make sure to select the field qualifiers in the grey box on the left – ie. Author/Association, Title, etc.
5. Login to the RefWorks web-site
6. In the “References” menu, select the “Import” option.
7. Select PEDro in the “Import Filter/Data Source” box.
8. Click on From Text.
9. Paste your selected records into the box.
10. Under Import To, select the folder you want the records to go into.
11. Import your search results by clicking on “Import”.
