San Francisco State University		BA	1972	English
University of Arizona		MLS	1974	Library Science

A. Personal Statement

As the UNM Health Sciences Library and Informatics Center's Native and Distance Services Librarian, I am particularly interested in and able to support library programs that address health disparities. My extensive experience with outreach to tribal communities has resulted in a network of contacts in remote areas around New Mexico. I also manage the library's NNLM/SCR-funded Outreach Program and the Native Health Database.

B. Positions and Honors. List in chronological order previous positions, concluding with your present position. List any honors. Include present membership on any Federal Government public advisory committee.

C. Selected peer-reviewed publications (in chronological order). Do not include publications submitted or in preparation.

A 100-Year Collection of Navajo Health Studies, 1886-1992, Revised Edition
Window Rock, AZ, Navajo Area Indian Health Service, Research and Publications Committee, 1992
Bradley, P and Nail-Chiwetalu, B. The Native Health Database: One Stop for Native Health Information. The IHS Primary Care Provider, 2009; 34(1): 1–2

- D. Research Support.** List selected ongoing or completed (during the last three years) research projects (federal and non-federal support). Begin with the projects that are most relevant to the research proposed in this application. Briefly indicate the overall goals of the projects and your role (e.g., PI, Co-Investigator, Consultant) in the research project. Do not list award amounts or percent effort in projects.

CLOSED

U26IHS300009 (Kennedy), 09/15/2005–09/14/2009

The Southern Colorado, New Mexico Native American Research Center for Health (NARCH)

The major goals of this project are to encourage research on health disparities affecting American Indian people and build the capacity to reduce distrust by American Indian communities and people towards research. Co-investigator

New and Familiar Horizons for Outreach in New Mexico, 5/1/2012–4/30/2013

National Library of Medicine, National Network of Libraries of Medicine, South Central Region

The major goals of this project are to promote the use of quality health information to improve health equity in New Mexico through classes, exhibits/health fairs and a survey assessment of medical practitioners' clinical health information needs in New Mexico. Principal Investigator

ACTIVE

Aligning Resources to Improve Health Information Access for New Mexico, 5/1/2013–4/30/2014

The major goals of this project are to connect with consumers, students and health professionals in New Mexico to increase awareness of free, reliable sources of health information. Outreach to Native American communities is a priority.
