Instructional Services Librarian

This faculty position is an opportunity for a research and technology-oriented health sciences librarian who will provide innovative instruction and be a strong investigator and scholar who can advance the priorities of this complex, dynamic health sciences library. The Instructional Services Librarian serves as an informationist and research expert for faculty, staff, fellows, residents and students. The incumbent will build collaborative relationships with department members by providing a variety of group instructional sessions related to library services, resources and research support, individual consultations and specialized information services and by participating as a faculty partner of departmental research and information management teams. This position is well-suited for a library/information science professional who is committed to pushing traditional boundaries of the profession and providing superior research support and educational services in a technology-oriented health sciences library in an academic health care setting.

This is a faculty position within HSLIC and reports to the Division Head of Reference and User Support Services, with a primary appointment in the UNM School of Medicine. In addition to the above, duties include those expected of all HSLIC faculty, including educational activities, Envoy liaison responsibilities, committee service, provision of the library’s data management planning services, scholarly communications and activities, outreach to the community and state, and commitment to earning credentials in the Academy of Health Information Professionals.

This is a full-time, benefits-eligible position. UNM provides a diversified package of benefits including medical, dental, vision and life insurance. In addition, UNM offers educational benefits through tuition remission and dependent education programs. For a more complete explanation of the benefits, go to https://hr.unm.edu/benefits

Appointment is posted as non-tenure track, open rank, to be determined based on qualifications; it is anticipated that appointment will be at the rank of Lecturer II. Salary range: $47,000 - $52,000 based upon qualifications.

Duties and Responsibilities

- Forge relationships with clinical care teams in assigned Health Sciences Center departments. Provide consultation and collaboration with clinical faculty, trainees and health-professions staff on a wide range of topics, including evidence-based practice, scholarship, research, scholarly communications and use of citation management tools.
Seek opportunities to partner with researchers on projects or grants that require deep expertise in information science and data management, such as integrating library content into decision-support technologies.

Assist members of the university community through consultations in person and by phone and email. Participate in reference service and mediated literature search service, including leading systematic reviews.

Perform Envoy liaison responsibilities, including research support, course-related instruction and collection recommendations for the University’s health sciences programs.

Support the Health Sciences Center community’s use of library resources in teaching, curricular development and assessment through training, instructional activities and development of print and online instruction materials, tutorials and other user assistance.

**Qualifications**

**Required/Minimum**

- Graduate degree in library or information science from an American Library Association (ALA)-accredited institution or equivalent at time of hire
- Two years of relevant library experience
- Applicants must be U.S. citizens or permanent residents.

**Preferred**

- Demonstrated experience in reference, literature searching and delivery of training using biomedical databases, particularly PubMed
- Experience relevant to functioning as a faculty member in the areas of teaching, scholarship (publications or presentations) and research
- Knowledge of educational technologies for the delivery of instruction or training, including screen capture and tutorial creation software
- Experience working as a team member in a complex, service-oriented environment

**Institutional Information**

Located in Albuquerque, HSLIC serves the UNM School of Medicine, undergraduate and graduate programs in the College of Nursing and Pharmacy, the Health Professions and Public Health Programs and two teaching hospitals. As the only federally designated resource library in New Mexico in the National Network of Libraries of Medicine, HSLIC serves the state’s health-information needs, including its 22 Native nations. The UNM Health Sciences Center has earned a national and international reputation for its integrated education, patient care, research and partnership initiatives, which address the unique health care needs of New Mexico’s urban and rural populations ([http://hsc.unm.edu](http://hsc.unm.edu)). UNM is the flagship research intensive university, with a student population of almost 26,000.
New Mexico offers close to 300 days of sunshine, a rich set of multiple cultures and histories, and outdoor activities including hiking, biking and skiing. The city of Albuquerque is the largest city in New Mexico, with roughly 900,000 people in the city and surrounding areas.

Application Information

To be considered complete, application materials must include the following:

- A cover letter addressing minimum and preferred qualifications
- A complete CV
- An educational philosophy statement
- Contact information for three professional references

UNM is an Equal Opportunity/Affirmative Action Employer.
